

FIELD PA SYSTEM

Portable Sound System for Field & Indoor Performance

The System

\$ 8,995.00

Yamaha's industry standard TF1 mixing console coupled to a wireless router provides you with the versatility to perform in virtually any setting. The touch screen interface works seamlessly with the "touch and turn" knob to streamline the set-up and sound checking process, and the system can be controlled wirelessly with an iPad (or similar tablet) using the TF Stage Mix App.

The console mounts in SKB's compact Mighty Gig Rig rack mounting system along with a Furman Power Conditioner, DBX Crossover, and 2 Yamaha PX Series amplifiers. Combine these with 2 Yamaha Club Series 215V speakers, 2 Yamaha Club Series 218V subwoofers, and 2 heavy-duty, wagon-style, custom-built speaker carts outfitted with tough-terrain wheels, and you can cross "couldn't be heard at the last comp" off your list!

Components

1	TF-1	Yamaha TF-1 16 Channel Mixer
2	C215V	Yamaha Club Series 15" Speaker
2	CW218V	Yamaha Club Series 18" Subwoofer
